# Alumni Tracking System

System function requirements by user

A higher user also has every function of the users below them. Admin includes Staff / Coordinator and User / Alumni. Staff / Coordinator includes User / Alumni.

## Users

| User | System role | What this user is for |
|---|---|---|
| Admin | super_admin | Runs the whole system, including accounts, roles, and the audit log. |
| Staff / Coordinator | staff | Maintains departments, programs, faculties, alumni, tracking, files, reports, and integrations. |
| User / Alumni | viewer | Signs in and reads academic structure, alumni profiles, evidence, the dashboard, and reports. A new sign-up receives this role. |

## Admin

Functions only the Admin can perform. The Admin also has every function in the Staff / Coordinator and User / Alumni sections.

| Code | Name | Description |
|---|---|---|
| **RBAC-001** | **View users** | Lists accounts and the roles assigned to each account. |
| **RBAC-002** | **Create user** | Creates an account with a name, email, password, and one or more roles. |
| **RBAC-003** | **Update user** | Changes a user's name, password, status, or role assignments. |
| **RBAC-004** | **Disable user** | Sets an account to disabled so it can no longer sign in. |
| **RBAC-005** | **View roles** | Lists roles and the permissions attached to each role. |
| **RBAC-006** | **Create role** | Creates a role with a key, name, description, and a set of permissions. |
| **RBAC-007** | **Update role** | Changes a role's name, description, or permission set. |
| **RBAC-008** | **Delete role** | Deletes a role that is not a protected system role. |
| **RBAC-009** | **View permissions** | Lists the permission catalog grouped by module. |
| **RBAC-010** | **Enforce access** | Every protected action checks the caller's permissions. A missing permission is rejected. Permissions come from the user's roles. |
| **AUD-001** | **View audit log** | Lists recent activity, including the actor, action, entity, summary, and time. |

## Staff / Coordinator

Functions the Staff / Coordinator can perform beyond read-only access. This user also has every function in the User / Alumni section. This user cannot manage accounts, roles, permissions, or the audit log.

| Code | Name | Description |
|---|---|---|
| ACAD-002 | **Create department** | Creates a department with a code, name, and description. |
| ACAD-003 | **Update department** | Changes a department's code, name, or description. |
| ACAD-004 | **Delete department** | Soft-deletes a department so it no longer appears in active lists. |
| ACAD-006 | **Create program** | Creates a program and attaches it to a department. |
| ACAD-007 | **Update program** | Changes a program's details or moves it to another department. |
| ACAD-008 | **Delete program** | Soft-deletes a program. |
| ACAD-010 | **Create faculty** | Creates a faculty record. |
| ACAD-011 | **Assign faculty to department** | Adds a faculty to one or more departments, or updates that assignment. |
| ACAD-012 | **Delete faculty** | Soft-deletes a faculty record. |
| ALUM-003 | **Create alumni** | Creates a profile with student details, contact info, and a required program. The student number must be unique. |
| ALUM-004 | **Update alumni** | Edits student details, contact info, employment status, or the attached program. |
| ALUM-005 | **Delete alumni** | Soft-deletes an alumni record. |
| ALUM-008 | **Add employment** | Records an employer, job title, industry, location, dates, and whether the job is current. The profile's employment status is updated from that record. |
| ALUM-009 | **Remove employment** | Removes an employment record from a profile. |
| ALUM-010 | **Update tracking** | Marks a graduate tracked or untracked and records a tracking event with a note and timestamp. |
| ALUM-011 | **Attach alumni to program** | Sets the program on an alumni record. That program belongs to one department. |
| RPT-002 | **Export CSV** | Downloads an alumni CSV, optionally filtered by department and tracked status. |
| RPT-003 | **Export Google Sheets** | Exports alumni rows to Google Sheets when that integration is configured. |
| FILE-001 | **Upload evidence** | Uploads an evidence file or image and attaches it to an alumni profile. |
| FILE-003 | **Delete evidence** | Soft-deletes an evidence file. |
| FILE-004 | **Store images** | Stores images on imgBB, Google Drive, or local disk, depending on which provider is configured. |
| INT-001 | **reCAPTCHA** | Enables or disables reCAPTCHA. Live keys call Google; missing keys use the local checkbox. |
| INT-002 | **Google authentication** | Enables or disables Google sign-in. It is available only when client id and secret are set. |
| INT-003 | **Google Drive evidence** | Sends evidence uploads to Google Drive when a service account and folder are configured; otherwise they stay on local disk. |
| INT-004 | **Email** | Sends email through SMTP when configured. Otherwise the message is logged. Can send a test message and a message to an alumnus. |

| Code | Name | Description |
|---|---|---|
| INT-005 | **Image hosting** | Sends image uploads to imgBB or Google Drive when configured, and to local storage otherwise. |
| INT-006 | **Google Forms import** | Accepts a signed Google Forms webhook and creates or updates alumni rows. |
| INT-007 | **Google Sheets import** | Imports alumni rows from the configured spreadsheet. |
| INT-008 | **CSV import** | Imports pasted or uploaded CSV rows as alumni and records success count, error count, and row errors. |
| INT-009 | **Integration status** | Shows which modular integrations are enabled and whether their credentials are present. |
| INT-010 | **Toggle integration** | Enables or disables a modular integration without changing the rest of the system. |

## User / Alumni

Functions a User / Alumni can perform. This is the role given to a new sign-up. Access is read-only.

| Code | Name | Description |
|---|---|---|
| AUTH-001 | **Sign in** | Signs in with email and password. A valid account receives a session; a wrong password or disabled account is rejected. |
| AUTH-002 | **Sign up** | Registers with name, email, and password and receives a session. Duplicate emails are rejected. The first account becomes Admin; later accounts become User / Alumni. |
| AUTH-003 | **Sign out** | Ends the current session and clears the session cookie. |
| AUTH-004 | **Current session** | Returns the signed-in user, assigned roles, and effective permissions, or an empty session when nobody is signed in. |
| AUTH-005 | **Google sign-in** | Signs in through Google and returns to the app with a session, when Google OAuth is configured and enabled. |
| AUTH-006 | **Bot check** | Sign-in and sign-up require reCAPTCHA when it is enabled. Live keys use Google reCAPTCHA; otherwise a local "I am not a robot" checkbox is used. |
| ACAD-001 | **View departments** | Lists and opens departments, including their programs and assigned faculties. |
| ACAD-005 | **View programs** | Lists programs and the department each program belongs to. |
| ACAD-009 | **View faculties** | Lists faculties and the departments they belong to. |
| ALUM-001 | **Search alumni** | Lists alumni and filters by name or student number, department, program, graduation year, and tracked or untracked status. |
| ALUM-002 | **View alumni profile** | Opens one profile, including program and department, contact, employment history, tracking events, and evidence files. |
| ALUM-006 | **Student details** | Reads student number, name, middle name, gender, graduation year, and batch on a profile. |
| ALUM-007 | **Contact info** | Reads mobile number, personal email, and Facebook account on a profile. |
| FILE-002 | **View evidence** | Opens or downloads an evidence file. |

| Code | Name | Description |
| --- | --- | --- |
| **DASH-001** | **Graduate statistics** | Sees total graduates, tracked count, untracked count, and tracked percentage. Percentage is tracked divided by graduates, rounded to two decimals. |
| **DASH-002** | **Statistics by department** | Sees graduate count, tracked count, and tracked percentage for each department. |
| **RPT-001** | **View reports** | Opens graduate and alumni report totals. Export stays with Staff / Coordinator and Admin. |
